Erskine prepared me, but the whole education department was not what got me through. As a graduate with a Secondary English degree, I can say that department needs to be overhauled. I learned a lot, but there were a lot of gaps in my education. Many of my professors went above and beyond to fill those gaps, but they should not have had to. I love Erskine, and I love education;

however, there are a lot of things in the education department that need to be changed and updated.
